1 should be very concious of what the Dutch say in the run up to this council, they r going to be pivotal! (& they know it) think about it ... de Jager made the telling point that he had not seen a proposal this week, quoted by Dutch finance minister says he had not seen a concrete proposal to leverage the EFSF with private capital : this is really worth reading if you want to understand how the EU council is going to work: <http://bit.ly/p1uZGj> ^[1] - if u want to understand the fine points of the diplomatic semaphore ..

some more pickup for Jan Kees
